

Back Country Horsemen of Washington  
Volunteer Hours Patch Program

For those chapters that wish to participate, the volunteer hours patch program is an excellent opportunity to award your members for their volunteer services. The Volunteer Hours Coordinator (VHC) will keep a running total of its member's hours. When the member achieves a certain number of hours, they should receive volunteer patches. Volunteer hours patches are available in 50, 100, 200, 500, 1000 and so on.

When the member has achieved their first 50 hours, they should receive their triangle arm patch and their 50 hour chevron. The member should have a total of 50 hours on record.

The member must record another 100 hours to receive their next chevron. The members should have a total of 150 hours recorded at that time.

The member must record another 200 hours before they can receive their next chevron. The member should have 350 hours recorded at that time.

The member must record another 500 hours before they can receive their next chevron. The member should have 850 hours recorded at that time.

See below for the schedule.

VH Patch/Pin Program Schedule							
Hours	50	150	350	850	1850	4350	9350
Triangle	X						
50	x						
100		x
